Summer Is Just Around The Corner!

As we continue into Summer, plans are underway to make our Summer Program a unique, fun, and educational experience for your child. Studies show that children who continue the learning process throughout the summer have a more successful transition into the new school year (both socio-emotionally and academically).

"CAMP PACIFIC"

A literature-based curriculum, inspired by Caldecott and New York Times Award Winning children's books. Your child will have the opportunity to participate in a wide variety of engaging learning activities, combining education with summer fun, integrating all areas of learning:
